Summary

I am a 19-year-old fresh graduate from one of the most favorite schools in my area, with a strong educational background and a keen interest in information technology. Currently, I work in an IT company, where I have gained valuable experience in web development and digital technologies. In my role as a Web Developer, I have been involved in various projects involving the development of modern web applications, both front-end and back-end, as well as system integration. I am always eager to continue learning and developing my skills in the dynamic world of IT, with a focus on innovation, efficiency, and quality of work.

Skills

Adobe Illustrator Designer • Backend Web Developer • Frontend Web Developer

Experience

Elisoft Technology

DKI Jakarta, Jakarta Utara

Web Developer

2024

I am responsible for the design, development, and maintenance of web applications that drive and support the company's business operations.

- Design and implement seamless, responsive user interfaces using cutting-edge web technologies such as HTML5, CSS3, and JavaScript, including popular frameworks like React, to deliver a smooth and engaging user experience.
- Design and implement business logic using server-side programming languages such as PHP (Laravel) and work with relational and non-relational databases (MySQL, PostgreSQL).
- Create and manage RESTful APIs for communication between front-end and back-end and integrate third-party services such as payments, notifications, and other external services.

Education

Vocational High School 1 Ciamis

Jawa Barat, Ciamis
